

Introducing Fat Kitty City, Northern California's Only Domestic Feline Sanctuary

For the past 13 years, PAWS has relied upon Fat Kitty City for all of our domestic animal problems. We have sent many sick and starving cats who have been dumped, or just shown up at our three sanctuaries, to this remarkable feline sanctuary where PAWS board member, Ed Minghelli, and his wife Cindy, founders of [Fat Kitty City](#), and their remarkable team perform the magic of TLC, good veterinary care and superlative housing to transform snarling, defensive bundles of matted fur into loving, happy companions.

Please [click here](#) to read their story, and to meet the "Real Housecats of PAWS."
